

# ***Energy Code Training for Jurisdictions***

**December 7, 2021**

**COLORADO**  
Energy Office

## **Training to Support the Building Community with Energy Code Compliance**

---

**What does the future hold for the energy code? The energy code is a forever moving target, and we truly want it to be with all of the new innovations of products, systems, and building science to assist with the design, construction, and implementation of the energy code. Join us as we provide two classes in one day at one location. What more could you ask for?**

***Session 1: 8:00 am – 10:00 am***

### ***Overview of the 2021 IECC***

This training session is designed to provide you an overview of the 2021 IECC with an emphasis to the unique provisions that are currently only found in the 2021 edition of the IECC. Let's discuss what new options and innovations have been provided for all of us to comply with energy efficiency. Join us as we discuss these provisions and provide guidance on how to treat these provisions.

***Session 2: 10:00 am – 12:00 pm***

### ***Overview of the 2018 IECC***

This session will also look at the provisions in the 2018 International Energy Conservation Code and discuss the new provisions available. This session will discuss how to apply these provisions in current and future projects. What should be provided, and what to look for on plans and in the field. Joins us as we discuss an overview of the 2018 IECC.

#### **LOCATION:**

Pueblo Regional Building Department – Hosting the Training

830 N. Main St.

Pueblo, CO 81003

If you have any questions, please feel free to contact Hope Medina or Erica DiLello at [hope.medina@shumscoda.com](mailto:hope.medina@shumscoda.com) or [EDiLello@noresco.com](mailto:EDiLello@noresco.com)

We look forward to having the conversation with you.
